

THE AGGRESSOR

System Powered by  **DOSATRON**
Water Powered Dosing Technology

Aggressive Reduction of LDS Conditions and Soil Salts

Finally, there is a way to easily apply an aggressive treatment strategy. Introducing... **The Aggressor!**

The Aggressor gives your turf manager the ability to:

- **Aggressively treat specific areas for localized dry spot and soil salts**
- **Safely and aggressively apply:**
 - **Revert™**
 - **pHAcid™ Sprayable via hand-syringing and spray applications**

The Aggressor is the first soil treatment strategy for reduction of soil salts and water repellency.

The Aggressor also provides enough water to create a flushing event while applying **Revert™** and **pHAcid™ Sprayable**.

Get aggressive with your turf management.
